HAPPY HOLIDAYS—TIS THE SEASON FOR TREES TO FALL

BY GREG VASILIEFF

Everybody at **Western Gardens landscaping, Inc.** would like to wish all of our clients, prospective clients and their families, a very safe and happy holiday. We would like to add a special thank you to our clients for this past prosperous and very successful year.

tree damage on your property.

We have now arrived at the Winter season of the landscaping of your community. At Western Gardens we are looking at your property to prepare for rain and wind.

The greatest liability currently on all of our properties is the tremendous new growth of all the trees. The trees are all overgrown from the warmest summer in SD County history. These trees are creating a liability on your property. The first substantial rain combined with any wind will cause trees on your property to break and fall. The liability of the trees **DANGER** is there and it is inevitable that there will be

If you cannot trim or prune all of your trees on your property, we recommend at least to look for the trees that are creating the greatest liability. We recommend trimming or removing before there is an accident.

You can call myself or Alex Millan to inspect your property. We are both trained experts in the growth patterns of trees in our area. Western Gardens will make a bid for you to remove or trim your liability prone trees.

Another issue that I have recognized at this month's property inspec-

tions, is the abundance of leaves in the drainage areas of our properties. I have already instructed all of our supervisors to begin checking, cleaning, and repairing any drainage systems.

If you are not a client of Western Gardens and need a drainage consultation to prepare for the winter rains, please call our office at 760- 720-1459, or go to our website at:

About US

Hilton Del Mar, Del Mar, CA

Located in Beautiful Carlsbad, CA, Western Gardens offers some of the finest landscaping services available today. The objective is simple: specialize in landscape maintenance for Apartment Communities, Homeowner's Associations, and Commercial Properties located throughout San Diego County.

Our Staff knows the needs of curb appeal for flower beds, entries, office and models of your communities.

Our supervisor is on your property daily, meeting with the manager. Our personalized service is appreciated by all of our clients.

Our Managers and crews are highly trained in all phases of landscape maintenance including monthly fertilizing program, formal or natural pruning, water conservation, and irrigation, weeding, tree trimming, pesticides and gopher/rodent control.

SUCCESS & YOUR ATTITUDE BY JOHN LOWERY

Why are some folks so successful, while other seem to just get by? Why do some see the glass half empty while others see the glass half full? To live is to dream, to die is to quit dreaming. If your living a life that is full of dullness, it's time you take life by the horns and start dreaming again. It's been said that dreams belong to the few who dare to make them come true.

I love it when I come up with a new idea and I share it with someone and they tell me - You can't do that. Most successful people tell you, that they had deaf ears when it came to OPO's (OTHER PEOPLES OPINIONS). I'm not talking about doctors, lawyers, or accountants, that's a very safe career path. I'm talking about the real successful - Bill Gates, Michael Dell, and Donald Trumps of the world. The guys who went out there with guts and came out with Glory. Yeah you might say they got lucky. Luck is always part of the game. But had they listened to their influences early on, they might never have gotten where they are today. And don't forget Donald Trump owed 10 billion to a 100 different banks just barely 10 years ago. If he had given up, where would he be today?

You have 2 choices in life when you wake up every day they are: Fear or Faith. If you want to be successful you have to choose faith, because life is full of opportunities and difficulties. Most obstacles that we face in life is in our heads. It's been said a million times that your attitude will determine your altitude and I firmly believe it.
