Level 2 Drought Alert		
Trigger	Voluntary or Mandatory Restrictions	Customer Conservation Targets
<ul style="list-style-type: none"> Level 2 applies when the Water Authority notifies its member agencies that due to cutbacks caused by drought or other reduction in supplies, a consumer demand reduction of up to 20% is required to have sufficient supplies available to meet anticipated demands. The member agency Board of Directors shall declare the existence of a Level 2 condition and implement the mandatory Level 2 conservation measures identified in this ordinance. 	Mandatory	Up to 20%

What are the restrictions at level 2?

All Level 1 water-use restrictions, plus:

- Limit residential and commercial landscape irrigation to no more than three assigned days per week on a schedule established by the General Manager and posted by the member agency. During the months of November through May, landscape irrigation is limited to no more than once per week on a schedule established by the General Manager and posted by the member agency. This section shall not apply to commercial growers or nurseries.
- Limit lawn watering and landscape irrigation using sprinklers to no more than ten minutes per watering station per day. This provision does not apply to landscape irrigation systems using water efficient devices, including but not limited to: weather-based controllers, drip/micro-irrigation systems and stream rotor sprinklers.
- Water landscaped areas, including trees and shrubs located on residential and commercial properties, and not irrigated by a landscape irrigation system governed by section 5 (b) (1)*, on the same schedule set forth in section 5 (b) (1)* by using a bucket, hand-held hose with positive shut-off nozzle, or low-volume non-spray irrigation.

* Limit residential and commercial landscape irrigation to no more than three assigned days per week on a schedule established by the General Manager and posted by the member agency. During the months of November through May, landscape irrigation is limited to no more than once per week on a schedule established by the General Manager and posted by the member agency. This section shall not apply to commercial growers or nurseries.

- Repair all leaks within 72 hours of notification by the member agency unless other arrangements are made with the General Manager.
- Stop operating ornamental fountains or similar decorative water features unless recycled water is used.

Restrictions shall not apply to water use from private wells or to the use of recycled water.
